A Correlation: Texas Academic Standards and Junior Achievement Middle School Programs

Updated March 2019
Texas English Language Arts and Reading 2017

Junior Achievement USA®
One Education Way
Colorado Springs, CO 80906
Overview

Junior Achievement programs offer a multidisciplinary approach that connects learning across social studies disciplines, such as economics, geography, history, government, and civics, while incorporating mathematical concepts and reasoning and language arts skills.

In this document, Junior Achievement programs are correlated to the Texas Essential Knowledge and Skills for Social Studies, the 2017 Texas revised standards for English Language Arts and Reading (ELA) and Texas Essential Knowledge and Skills for Mathematics. This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard, but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed. When Extended Learning Opportunities within the curriculum directly support an academic standard it is indicated by the letters ELO superscripted next to the standard.

JA Middle Grades Programs

 JA Economics for Success® provides practical information about personal finance and the importance of identifying education and career goals based on a student’s skills, interests, and values.

 JA Global Marketplace® Blended Model introduces students to the global marketplace and the ways in which countries buy and sell from each other. Through completion of this program, students will gain an understanding of the role of producers and consumers in the interconnected global market.

 JA It’s My Business® encompasses entrepreneurship curriculum for students in grades six, seven, and eight. Students are encouraged to use critical thinking to learn entrepreneurial skills that support a positive attitude as they explore and enhance their career aspirations.

 JA It’s My Business® Blended Model provides middle school students an opportunity to experience the initial steps necessary to start a business. New program content provides an authentic entrepreneurial experience for students, with each session building up to a product-pitch competition.

 JA It’s My Future® provides practical information about preparing for the working world while still in middle school.

 JA It’s My Future® Blended Model offers middle school students practical information to help prepare them for the working world. Students develop the personal-branding and job-hunting skills needed to earn a job.

### Session One: Business and Customer

Students learn about the relationship between businesses, their customers, and the mutually beneficial exchange of products and services. Students connect well-known products and businesses to their country of origin as they explore the global marketplace.

**Objectives:**

- Identify what a business gains from an exchange with a customer.
- Identify what a customer gains from an exchange with a business.
- Define ethics and ethical dilemma (Deeper Look).
- Identify the stakeholders of a business. Evaluate whether the actions of a business, which had positive or negative implications to stakeholders, were ethical (Deeper Look).

**Grade 6**

113.18.8 A. Describe ways in which the factors of production (natural resources, labor, capital, and entrepreneurs) influence the economies of various contemporary societies

113.18.9 C. Understand the importance of morality and ethics in maintaining a functional free enterprise system.

113.18.20 A Science, technology, and society. The student understands the influences of science and technology on contemporary societies.

**Grade 7**

113.19.17 Citizenship. The student understands the importance of the expression of different points of view in a democratic society.

**Grade 8**

113.20.14 Economics. The student understands the origins and development of the free enterprise system in the United States.

### Session Two: Business and Culture

Students learn that businesses must understand cultural differences in order to meet customers’ needs and make a profit in different countries. By examining the different habits of international customers, students learn about international etiquette.

**Objectives:**

- Identify business-related, cultural differences throughout the world.
- Explain the need for international businesses to take into account their customers’ cultural differences in order to provide for the customer and make a profit.
- Identify cultural differences throughout the world that affect social interaction and communication.

**Grade 6**

113.18.15 Culture. The student understands the similarities and differences within and among cultures in various world societies. The student is expected to:

A. Define culture and the common traits that unify a culture region;

B. Identify and describe common traits that define cultures

113.18.16 Culture. The student understands that all societies have basic institutions in common even though the characteristics of these institutions may differ. The student is expected to:

(A) Identify institutions basic to all societies, including government, economic, educational, and religious institutions.

### Session Three: Global Trade

Students learn that businesses trade in order to obtain products and services that customers want or need. Students will learn about imports and exports, examine the ways technology has improved international trade, and participate in a global trade game.

**Objectives:**
The students will be able to:
- Identify reasons why countries trade.
- Demonstrate that countries benefit more from trade than from trying to meet all their own needs.
- Apply key terms related to trade.
- Describe how improvements in technology can influence international trade.

### Session Four: Why Countries Specialize

Students learn that modern countries cannot provide all the products and services that their people want and need. Therefore, businesses in different countries specialize by focusing their efforts on specific resources or producing smaller parts of a product. Students look at examples of specialized global manufacturing, discuss how it affects trade, and consider the trade-offs of interdependence.

**Objectives:**
The students will be able to:
- Define specialization.
- Analyze examples of international trade to explain why modern countries cannot provide for all of their wants and needs.
- Show how events and decisions in one country have a causal relationship with, and produce an effect on, customers in another country.

## JA It’s My Future Blended Model

### Session Three: High-Growth Careers

**Students** learn about the importance of being aware of which fields are growing and which are declining when making decisions about their own careers. They play a game that introduces information about high-growth job fields.

**Objectives:**

- Identify specific careers that are forecast to have high-growth rates.
- Consider a variety of factors when selecting a career.

### Session Four: Career Mapping

**Students** see how early experiences can build transferable skills that contribute to future job success. They look at the lives of celebrities, focusing on the life experiences that led to their success. They learn about career maps by examining a sample and then create their own.

**Objectives:**

- Identify jobs in specific career clusters that they would like to explore further.
- Plan significant milestones they need to reach to earn a particular job.
