Overview

Junior Achievement programs offer a multidisciplinary approach that connects learning across social studies disciplines, such as economics, geography, history, government, and civics, while incorporating mathematical concepts and reasoning and language arts skills. This list is not meant to be exhaustive or intended to suggest that a JA program will completely address any given standard but is designed to show how it can enhance or complement efforts to do so. The flexibility of the programs and supplementary materials allow specific content or skills to be addressed in depth by the teacher and/or business volunteer as needed.

In this document, Junior Achievement programs are correlated to the Alabama Social Studies Standards and the Career and Technical Standards, as well as the Common Core State Standards in English/Language Arts and Mathematics. Alternate delivery methods, such as student self-guided, cover the same learning objectives for social studies standards and the JA Pathway Competencies. However, the varied implementation models may cause slight variation in English Language Arts and Mathematics correlations.

JA Middle Grades Programs

JA Economics for Success® provides practical information about personal finance and the importance of identifying education and career goals based on a student’s skills, interests, and values.

JA Global Marketplace® Blended Model introduces students to the global marketplace and the ways in which countries buy and sell from each other. Through completion of this program, students will gain an understanding of the role of producers and consumers in the interconnected global market.

JA It’s My Business® Blended Model provides middle school students an opportunity to experience the initial steps necessary to start a business. New program content provides an authentic entrepreneurial experience for students, with each session building up to a product-pitch competition

JA It’s My Future® Blended Model offers middle school students’ practical information to help prepare them for the working world. Students develop the personal-branding and job-hunting skills needed to earn a job.

JA Inspire™ is more than a career fair, it brings together the business community and local schools and is designed to help launch middle school students into their futures: high school, college, and careers beyond. (Grades 6-8)

JA Career Exploration Fair™ is an event where students learn about a range of career options across multiple career clusters. (Grades K-12)

JA Career Speakers Series™ In JA Career Speakers Series, a volunteer guest speaker visits the classroom and shares information about his or her career, work, and education experience. (Grades K-12)

JA Excellence through Ethics™ Through JA Excellence through Ethics, students will learn the importance of ethics and ethical decision-making and how ethical and unethical choices affect everyone in a community. (Grades 6-12)

JA It's My Job™ (Soft Skills) will help students understand the value of professional communication and soft skills, making them more employable to future employers across multiple career clusters. (Grades 6-12)

## Session Three: Global Trade
Students learn that businesses trade to obtain products and services that customers want or need. Students will learn about imports and exports, examine the ways technology has improved international trade and participate in a global trade game.

**Objectives:**

Students will:

- Identify reasons why countries trade
- Demonstrate that countries benefit more from trade than from trying to meet all their own needs
- Apply key terms related to trade.
- Describe how improvements in technology can influence international trade

**Social Studies Grade 6**

10.) Analyze changing economic priorities and cycles of economic expansion and contraction for their impact on society (since World War II.)

**Social Studies Grade 7 Geography**

1.) Describe the world in spatial terms using maps and other geographic representations, tools, and technologies. 9 ) Explain how human actions modify the physical environment within and between places, including how human-induced changes affect the environment.

## Session Four: Why Countries Specialize
Students learn that businesses in different countries specialize by focusing their efforts on specific resources or producing smaller parts of a product.

**Objectives:**

Students will:

- Define specialization
- Analyze examples of international trade to explain why modern countries cannot provide for all their wants and needs
- Show how events and decisions in one country have a causal relationship with, and produce an effect on, customers in another country

**Social Studies Grade 6**

10.) Analyze changing economic priorities and cycles of economic expansion and contraction for their impact on society (since World War II.)

**Social Studies Grade 7 Geography**

1.) Describe the world in spatial terms using maps and other geographic representations, tools, and technologies. 11 ) Explain the cultural concept of natural resources and changes in spatial distribution, quantity, and quality through time and by location.

## Session Details

### Session One: Entrepreneurs

Students learn about the relationship between entrepreneurs, their businesses, and the products and services they offer, and then take an entrepreneurial characteristics inventory to assess their own entrepreneurial skills and interests.

**Objectives:**

- Define entrepreneurship and social entrepreneurship
- Describe the relationship between a business and its products and service
- Identify entrepreneurial characteristics and recognize them, in varying degrees, in themselves

### Session Two: Market and Need

Students are introduced to young entrepreneurs who have successfully met an identified market need, and then created a new product to meet the need. Students work in groups to brainstorm current needs within different product categories.

**Objectives:**

- Define market and need
- Explain the importance of identifying market and need when developing new product or service ideas

## Academic Standards

#### Session One: My Brand

Students learn that they have their own personal brand and that the brand they build today will reflect on them in the future. They examine well-known logos to learn how individuals and companies create their brands and build their reputations. They assess their personal characteristics to define their own brands and then develop logos to represent themselves.

**Objectives:**

Students will:
- Describe the elements of a brand
- Recognize the ability of personal branding to build a positive reputation, for their personal life as well as for their future career
- Design a logo that expresses their personal brand

#### Career Cluster Explorations

### Session Two: Career Paths and Clusters

Students are introduced to the 16 career clusters and the pathways through them. They take a career interest survey and learn about potential jobs within their preferred clusters. They then share job information with other members of the class and discuss the importance of all jobs within a community.

**Objectives:**

Students will:
- Define careers cluster.
- Identify jobs in specific career clusters to explore further
- Recognize the interconnectivity and value of all types of jobs

#### Workforce Essentials

1) Explain how to research and select career opportunities.

3) Demonstrate how to locate, evaluate, and interpret career information for a specific career.

#### Career Cluster Explorations

5) Summarize written materials from various career sources clearly, succinctly, and accurately.

11) Demonstrate the ability to locate resources to determine job and career opportunities related to the Alabama Career and Technical Education clusters.

**Common Core ELA:**

# Session Four: Career Mapping

Students learn how early experiences can build transferable skills that contribute to future job success. Students look at the lives of celebrities and their paths to success, focusing on early experiences. They learn about career maps by examining a sample and then creating their own.

**Objectives:**

Students will:

- Identify jobs in specific career clusters that they would like to explore further
- Plan significant milestones they need to reach to earn a particular job

**Workforce Essentials**

2 ) Compare the relationship between educational achievement and career planning.
12 ) Determine uses, capabilities, and limitations of technological tools for achieving personal and workplace needs.

**Career Cluster Explorations**

6 ) Create a personal plan of study to meet career goals and objectives.

### Session Five: On the Hunt

Students are introduced to the basics of looking for and applying and interviewing for a job. They play a game in which they must identify two truths and a myth about the job search process. They also learn the fundamentals of creating a resume and engage in simulation in which they identify appropriate skills for various jobs and decide upon the right section of a resume to highlight those skills.

**Objectives:**

Students will:

- Recognize basic job-hunting techniques, including looking for a job, applying, interviewing, and listing references
- Recognize the importance of personal presentation and making a good impression, on paper and in person.
- Recognize the basic construction of a resume and skills that should be highlighted on a resume.

**Workforce Essentials**

4 ) Determine personal responsibility for making educational and career choices.
5 ) Apply skills needed for seeking, obtaining, maintaining, and changing jobs, including preparing a résumé, completing job applications, participating in a job interview, and dressing and grooming for the workplace.

**Career Cluster Explorations**

8 ) Describe employment skills needed for obtaining and maintaining a job.
9 ) Demonstrate interpersonal skills, including teamwork, conflict management, problem solving, and networking.
